

## PARTICIPANT COMMENTS – GRANT WRITING

I enjoyed the grant writing class and took away a lot of great information on the process, how to prepare a grant, and other nuances associated with grants such as the importance of personal relationships with a potential grantor. I also appreciated the list of possible grant sources. – **Steve Juren, CWRT of Washington DC**

The Grant Writing presentation provided meaningful, applicable, and pertinent information in a clear and concise manner for Roundtables seeking additional funding sources. The PowerPoint slides were easily understood and aligned nicely with the speaker's comments. We are looking forward to getting a copy for further use and hope they will be posted on the CWRT Congress website.

While specifically targeted for larger funding procurement efforts, we believe a lot of the grant writing information provided, as well as the speaker's "tips and tricks", will help us have more success in funding small and mid-size projects through local sources. Thanks again for all the helpful assistance you all are providing, Mike. – **Charles Lott, Cedar Valley CWRT**
