

## PARTICIPANT COMMENTS – YOUR RESOURCE

It was an interesting meeting. Nice to "walk" through the website and see how easy it is to navigate and the content. Thank you – **Cheryl Rice, Milwaukie, Oregon**

I felt it was worthwhile, although it was not what I had been expecting. Other members of the Cincy CWRT should have attended, but I am still having an issue trying to get them on board.

I think you have done well making your web site a real value for we folks downstream. Please do keep up your work, although I am seeing that much of the congress is Mike Movius. Don't burn out. I hope there will be a Congress meeting this fall – will see you there. – **Tom Williams, Cincinnati CWRT**

Great walkthrough of the outstanding website. Thank you for the effort in building and maintaining it. Encourage all Round Table leaders and their Boards to watch the video and learn about the vast number of resources available on it. Response with suggestions for additional features that would be valuable to the Round Table community. – **Richard Jankowski, Old Baldy CWRT**

Both Charlie Lott and I thought it was a very worthwhile presentation. Even though I have been on the website before and have used some of the resources your tour opened it up to a greater extent for me. Charlie and I have discussed the meeting and are using some of the things you suggested like best practices and ways to improve our web page. We are going to introduce the site to our membership at the next meeting. And, in fact, I have spent several hours, myself, today digging around the site. Thanks for another great class. – **Frank McCaw, Cedar Valley CWRT**
